

Make an offer

Version: 1.0

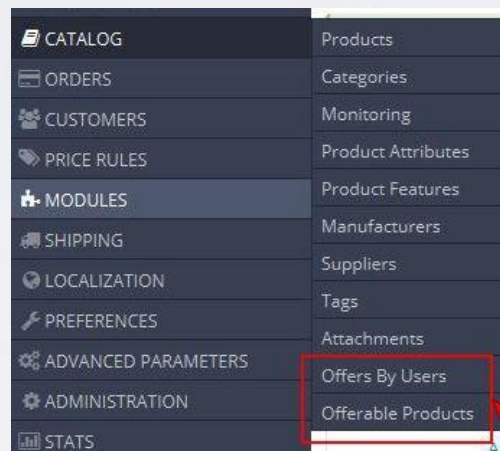

Installation

This module requires PrestaShop 1.5 or newer version.

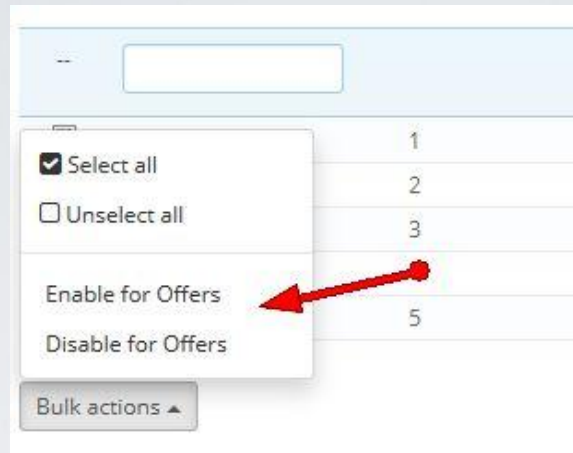

To upload Module:

1. Go to Back office >> Modules >> Click upload module and select ZIP module file to upload.
2. After uploading module you can find it under "Front office Features Tab".
3. Click install button and you are done.
4. Click Configuration link to edit block heading etc.
5. Links to view/edit offers should be under Catalog menu

Offer able Products

- Go to Catalog >> Offerable products and simply select products you want to enable for users to bargain on. Choose appropriate option from actions menu below to enable/disable.

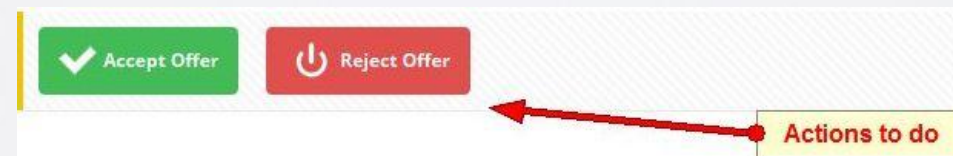

Please note that actions are dependent on products you select.

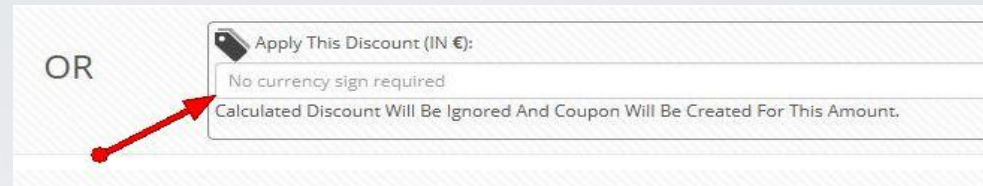

Offers By Users

Go to Catalog >> Offers by users and click offer you want to perform action on, you will see all the details submitted by users and simply click buttons at the end to make the final decision.

By accepting offer you will agree to user desired discount and coupon will be created for that discount.

You can also make counter offer which will be your final offer and a coupon will be sent to user for this offer

OR

Apply This Discount (IN €):

No currency sign required

Calculated Discount Will Be Ignored And Coupon Will Be Created For This Amount.

Configuration

- Go to Modules >>Find Make an Offer module and click >> Configure.
- You can add customized messages in text blocks available which will be shown to users in email.
- Google captcha is also available to fight spam, you will need KEY from Google to activate this which can be generated without any cost by clicking link shown under that option.
You will need to enter your website URL to get the [SITE KEY](#)
- By default User have to purchase minimum amount they made offer on

For example if he made offer on product = **\$24** and you gave him discount of **\$5** but he tries to avail that discount on same product with different combination with price less than **\$24** he cannot do this.

But if you want to disable this option and give user a free hand just Select Yes in below option.

Leave empty for default

Disable Min Amount Required? ☐ YES ☒ NO
